Brochure

A dossier is shown inside its own page.

Nothing on the site links to this file,

so nothing offers to download it.

Scroll: there are four pages.

Brochure

Page two exists so the frame has
something to scroll.

The icon on the desk is the first
photograph in this folder, if there
is one - otherwise a drawn document.

Brochure

Page three.

A project holding a video is a film,
and a film never shows a dossier.
The panel refuses both in one folder.

Brochure

Page four, the last.

Drop a cover photograph beside this file and it becomes the icon, while this stays what the click opens.
